

MAESTRO PLC Custom Centrifugal Compressor Control System

The MAESTRO Universal is the standard control system selected for new TURBO-AIR compressor builds. It is a microprocessor-based system with many unique, energy-saving features.

Features

- Control systems can be locally mounted on the compressor skid, designed with local I/O and remote processors, or any other customer-defined arrangement
- Custom PLC systems are fully tested by our Control Engineering Department prior to shipment
- Control system enclosures are available for non-hazardous and hazardous environments, including ATEX Zone 2
