

Sistema de control MAESTRO PLC personalizado para los compresores centrífugos

Los sistemas personalizados basados en PLC se utilizan para conjuntos con un número alto de entradas/salidas (E/S), varios bucles de control del circuito de gas y múltiples procesos. Se encuentran disponibles PLC de la mayoría de los principales proveedores industriales. Nuestros ingenieros pueden diseñar, programar y suministrar el sistema de PLC que nos haya especificado, montado y cableado en cualquier conjunto de compresor.

Características

- Control systems can be locally mounted on the compressor skid, designed with local I/O and remote processors, or any other customer-defined arrangement
- Custom PLC systems are fully tested by our Control Engineering Department prior to shipment
- Control system enclosures are available for non-hazardous and hazardous environments, including ATEX Zone 2
