

D-ILA Series Heatless Desiccant Dryers

2.7-141.6 m³/min, 90-5,000 cfm

Reduce your total cost of ownership with the new D-ILA Series of heatless desiccant dryers that provides clean, dry compressed air through its reliable design and superior serviceability.

Features

- **Low-profile design** permits placement of dryer in areas with low overhead clearances, while minimising shipping costs
- **Rear-mounted inlet and outlet manifolds** provide convenient access to critical valves and components for easier and safer service and maintenance as compared to competitive designs
- **New long-life switching and purge valves** with extended service intervals
- **New enhanced controller** provides precise pneumatic valve sequencing; backlit LCD display is easy to read under all lighting conditions
- **New maintenance reminders** alert users to critical preventive maintenance intervals to ensure consistent, uninterrupted service
- **New easily accessible control air solenoid valves** with push to test feature
- **External communications** via Modbus accessible through the controller's RS-485 port
- **Status panel** provides quick visual indication of dryer operation, tower status and alarm annunciation

HLA 1800
