

FA In-Line Filter Replacement Elements

FA-Series replacement filter elements are specifically designed and extensively tested to meet Ingersoll Rand specifications. It is made out of stainless steel mesh to withstand high differential pressure while minimizing flow restriction through the element and to ensure efficiency.

Features

-
- **Reliable Operation:** Filter element with stainless steel mesh withstands high pressure and minimizes flow restriction
 - **Long Element Life:** Proprietary media coating technology protects against corrosion and increases element life
 - **Easy Maintenance:** Paired with ergonomic bowl design of housing, this filter element requires no-touch, simplifying element replacement

Model Specifications

Model Name	OEM Part #
FA150IG In-Line Filter Replacement Element	Part # 24242018
FA150IH In-Line Filter Replacement Element	Part # 24242034
FA190IG In-Line Filter Replacement Element	Part # 24242083
FA190IH In-Line Filter Replacement Element	Part # 24242091
FA30IG In-Line Filter Replacement Element	Part # 24356685
FA30IH In-Line Filter Replacement Element	Part # 24356693
FA40IG In-Line Filter Replacement Element	Part # 24241846
FA40IH In-Line Filter Replacement Element	Part # 24241853
FA75IH In-Line Filter Replacement Element	Part # 24233389
FA75IG In-Line Filter Replacement Element	Part # 24241895

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions.
