

Ultra FG Lubricant

Ingersoll Rand also offers a high quality, H1 and NSF certified ;food grade lubricant designed specifically to help customers in the food and beverage industries meet their production quality standards.

Features

Ingersoll Rand's Ultra FG lubricant offers you peace of mind that your products are safe from incidental contact and that your compressors will run trouble-free for longer, increasing your overall productivity.

Why Ultra FG?

Ultra FG contains an additive that exhibits antimicrobial activity to protect the lubricant against bacteria, yeasts and molds. The additive also protects the lubricant from contamination caused by food-borne microorganisms and inhibits lubricant degradation providing you with longer lubricant life and reducing your maintenance costs.

In addition, Ultra FG is made from synthetic alkylated naphthalenes, which provide solvency and dispersing characteristics. The lubricant does not form abrasive deposits commonly found in conventional fluids, such as polyalphaolefins (PAOs), increasing your compressor's reliability.

- Up to 8,000 hours of lubricant life
- Resists foam, sludge, varnish and corrosive acid formation
- Superior dispersing characteristics for easier removal of water
- Long maintenance intervals require less lubricant

Model Specifications

Bottle Size	Hours	ISO Viscosity Grade	Viscosity Index	Part #	Base Stock
5 liter	8000	46	121	Part # 23973969	Synthetic
5 gallon	8000	46	121	Part # 23973977	Synthetic
55 gallon	8000	46	121	Part # 23973985	Synthetic

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity and efficiency. For more information, visit www.IRCO.com.
