

## Next Generation R-Series 23-29 kW Oil-Flooded Rotary Screw Compressors

Ingersoll Rand works to keep you ahead of your competition with Next Generation R-Series air compressors that boost productivity, lower operating expenses and extend equipment life. Next Generation R-Series air compressors. The intelligence you need—to win.

### Features

- **Improved Efficiency:** State-of-the-art, fully integrated airend delivers the efficiency and reliability you need for critical processes
- **Decreased Energy Use:** Premium efficiency IP55 motor delivers significant energy savings, and the optional integrated variable speed drive (VSD) further decreases energy consumption
- **Enhanced Reliability:** Large surface aftercooler and high performance separator filter maximize air quality and uptime of your equipment
- **Ease of Maintenance:** Hinged-door service access provides quick, easy access to all user-maintainable components
- **Innovative Design:** Arrangement of fail safe shaft seal, integrated oil filter and oil regulation valve ensures external hoses are reduced to a minimum to guarantee the quality and reliability of your compressor
- **Remote Intelligent Control:** Xe-Series controllers deliver increased functionality through an intuitive user interface, as well as remote access through built-in Modbus connectivity
