

Nirvana 15-30 kW VSD Oil-Flooded Rotary Screw Compressor

Ingersoll Rand Nirvana variable speed rotary screw compressors embodies advancements in aligning technology and reliability. Nirvana provides the ability to match compressed air demand while ensuring the lowest power consumption and operating cost. And Nirvana's unique IntelliDrive has the ability to be resized to a different horsepower to grow with your business.

Features

- **Ultimate Energy Efficiency:** Nirvana's variable speed drive (VSD) automatically adjusts its compressed air output to achieve the highest efficiency for your operation, saving up to 35% in energy costs
- **Enhanced Reliability:** Fewer connections and smart integration eliminates leaks and pressure drops maximizing reliability
- **Single-point Control:** The Nirvana Controller offers easy access to your compressed air system, featuring excellent diagnostic capabilities to pinpoint service needs
- **Scalability:** Unique IntelliDrive system has the ability to scale up your compressor system to grow with the demands of your business through a simple firmware upgrade
- **Improved Work Environment:** Whisper-quiet operation as low as 65 dBA allows for installation closer to point of use, reducing costs and ensuring a better, safer work environment
- **Optional Total Air System (TAS):** Clean, dry air in a single package that minimizes installation costs, space and features improved ISO air quality

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions.
