

Portable Belt Drive

The reciprocating belt drive units are available upto 3.0 kW in portable configuration and are designed for intermittent duty applications such as roofing, framing, carpentry and general maintenance requirements. The belt drive compressors include cast iron cylinders, a balanced belt wheel for smoother running, auto start/stop regulation pressure switches, TEFV motors and come complete with factory fill of lubricant.

Features

- Twin cylinder single stage pump units
- Pressure regulator with gauge at discharge
- Includes wheel kit and maneuvering handle
- Quick release fitting on discharge regulator
- Safety relief valve and check valve fitted
