

Stationary Silenced Belt Drive

This range has reduced noise levels of between 63dB(A) and 69 dB(A), by having sound reduced lined panels and the elimination of any unwanted vibrations, resulting in less restrictions to the compressor location in light industrial applications. With the addition of an option for receiver mounted all through the range and also a S/D Starter (4 to 7.5kW) and an integrated refrigeration dryer (5.5 & 7.5 kW), Ingersoll Rand can provide the solution to your silenced, compressed air needs.

Features

- Separate cooling fan
- Inlet air filter
- Auto start / stop regulation by pressure switch
- Twin cylinder aluminium pump unit
- IP54 TEFV motor
- DOL starter
- Star / Delta option available on select models
- Factory-fill of lubricant

Model Specifications
