

## Energy Recovery Unit ERU 45-600kW

The new Energy Recovery Unit by Ingersoll Rand uses the waste heat generated by the compression process in Oil Free Compressors to dramatically increase the overall system efficiency. With a continuous monitoring of critical variables, redundancy on main components, and several options to suit any Oil Free application, the Energy Recovery Unit provides the efficiency, productivity and flexibility the modern marketplace needs with added features for top class reliability and uptime.

### Features

- **Sanitize** . Preventing your end product from any contamination
- **Pre-heating** . Helping you to reduce your boiler energy consumption
- **Reduce your CO<sub>2</sub> footprint** . This modular design is featuring advanced controls and critical components redundancy
- **Plug and play solution** . Plug and play solution. To immediately start recovering energy

# Model Specifications

Model	nominal kw	operating pressure air barg	operating pressure water
Energy Recovery Unit	45 - 600	4 - 10	2 - 10
Air Blast Cooler	45 - 600	-	2 - 10

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$14 billion global business committed to a world of sustainable progress and enduring results. For more information, visit [www.ingersollrand.com](http://www.ingersollrand.com).
