

SelectCARE Extended Warranty Program

Rotary Screw Compressors and Air Dryers*

Comprehensive and Preventive Maintenance Coverage

SelectCARE is designed for peace of mind to ensure that your new Ingersoll Rand equipment will run at peak efficiency for years to come. With SelectCARE in place, you can extend the standard warranty period from 12 months to up to 60 months through a comprehensive preventive maintenance program.

Get High Reliability and Improved Performance

- Comprehensive expertise and early detection of impending problems
- Ensures compressor and dryer maintenance is performed to OEM specifications and schedule
- Service program based on OEM requirements that cover regular maintenance, spare parts, consumables and coolants
- Expert certified technicians keep your equipment tuned for peak efficiency and performance
- Reduces maintenance and service cost uncertainty for up to 5 years

"With SelectCARE, I feel good knowing the scheduled maintenance activities are handled with no billing surprises."

Peace of Mind

SelectCARE extends your standard warranty period from 12 up to 60 months. To enjoy up to 5 years of an extended warranty, register for SelectCARE within 6 months of start-up.

Extend Your Coverage on Rotary Screw Compressors and Dryers

* Limitations may apply, check with your local Ingersoll Rand authorised distributor for a full list of available models.

How the Power of SelectCARE Drives Your Maintenance Program

OEM Genuine Parts

Genuine Ingersoll Rand parts ensure your compressor system operates to its specifications. Non-genuine parts are not optimised for pressure drop, thermal conductivity or Ingersoll Rand's standards, which results in decreased performance and excessive operational costs.

Predictive Diagnostics

Utilizing best-in-class technology and big data analytics, your Ingersoll Rand authorised distributor will deliver additional value with predictive diagnostic reports.

Understanding the impact of certain metal content, as well as acidity over time, allows Ingersoll Rand to deliver a condition-based assessment of the oil. When combining the oil analysis trend with vibration analysis trend, the mechanical condition of the airend can be determined.

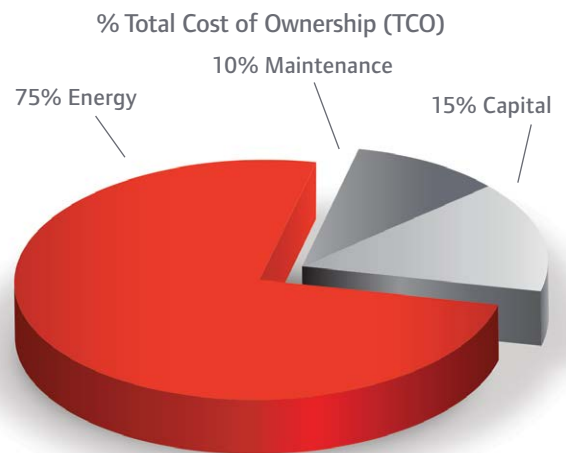

Trained Technicians

Anyone can turn a wrench, but knowing your technician is factory certified and trained to the highest safety standards allows you to focus on your core business, while we take care of your compressor system.

Your Requirements to Benefit from SelectCARE Extended Warranty:

1. Commission Ingersoll Rand assets and register through an authorised distributor within 6 months of start-up
2. Receive scheduled maintenance by a certified Ingersoll Rand technician using SelectCARE kits per Ingersoll Rand instructions
3. Certified technician performs predictive diagnostics based on Ingersoll Rand schedule and sends results to a designated lab
4. Authorised distributor follows up on recommendations from the lab's review of predictive diagnostics

SelectCARE Reduces your Energy Consumption

Energy makes up the largest percentage of your TCO. As little as 2-3% air loss in a 75 kW compressor can cost you more than € 2,000 annually.

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$14 billion global business committed to a world of sustainable progress and enduring results. For more information, visit www.ingersollrand.com.
