A Trusted Partnership

Compressed air is critical to your operation. A proper maintenance strategy is crucial to avoiding unplanned, unbudgeted downtime and production interruptions. By choosing an Ingersoll Rand CARE service program, you are investing in your future with a trusted partner.

The CARE Service Program Advantage

Genuine Parts
Ingersoll Rand genuine parts are your best choice for maximum reliability and optimal performance. Using genuine parts eliminates exposure to unnecessary equipment wear and tear, which leads to increased downtime and higher operating costs.

Rapid Response
As an Ingersoll Rand service program customer, you are our top priority when it comes to repair work.

Optimized for Efficiency
The largest operating cost for a compressed air system is electricity consumption. Our CARE programs help maintain compressor efficiency by ensuring that filters and fluids are kept in optimal condition, and controls are tuned for peak performance.

Early Detection and Predictability
Our lubricant analytics and mechanical condition-trending service let us know when your equipment needs to be checked so it won’t go down unexpectedly.

We Don’t Forget
Automated shipment or scheduling reminders prevent any chance of overlooking or under-maintaining your equipment. Compressed air is our expertise and we will make sure you don’t miss a scheduled maintenance.

Lasts Longer, Runs Better
Your compressor is as good as its components — each is dependent on the other for proper operation. Replacing the right parts at the right time ensures longer life and reduces the likelihood of unwanted surprises.

It All Adds Up to Peace of Mind

Lower Cost of Ownership
CARE service programs provide the most cost-effective solutions based on your customized maintenance strategy.

Quality Results
Ingersoll Rand factory-trained service technicians are backed by more than 145 years of industry experience.

Increased Uptime
Our CARE programs help decrease unplanned downtime and costly production interruptions.

Efficient Energy Use
Peak system efficiency is achieved through properly performed maintenance and inspection.

Peace of Mind
Our world-class services will help you achieve the results you need, while you focus on what’s important to your business.
Reliability For Life

Regardless of your maintenance strategy, the goal of our CARE service programs is to be your trusted partner, earning the right to ensure reliability for the life of your compressed air equipment.
