

Saver Lock Valves

The Ingersoll Rand SaverLock Valves (SLVs) provide a simple solution to compressed air losses from compressed air outlets, receiver tanks, or other compressed air storage mediums. Designed to shut off sections of the compressed air system when not in use, the SLV ensures that compressed air already produced does not escape into the atmosphere. Limiting compressed air losses increases overall system efficiency, reduces maintenance needs, and extends compressor system lifetime to reduce costs and increase operational efficiency.

Features

Compressed air losses are a common occurrence in compressed air systems and result in operating compressors at full loads for longer periods of time, increased compressor system maintenance requirements, and higher energy bills. SaverLock Valves prevent unwanted compressed air losses. Installing SaverLock Valves provide the following benefits:

- **Decreased Energy Use:** Installation ensures compressed air doesn't escape into the atmosphere from compressed air storage tanks, piping, and air outlets, and allows you to reduce run time of compressed air equipment and lower energy usage for your operations
- **Reduced Maintenance Requirements:** Conserving compressed air prevents the need for overproduction, which reduces wear and tear on compressed air equipment, protects your investment, and reduces overall system maintenance needs
- **Enhanced Reliability:** Back-up battery and manual valve opening/closing operation ensure you have compressed air when you need it, even in the event of a power failure
- **Simple and Serviceable:** Compact design is easy to install and maintain

Model Specifications

Model	Inlet Size BSP (inches)	Outlet Size BSP	Operating Pressure (barg)	Medium temperature (°C)	Ambient temperature (°C)	Enclosure protection rating	Opening/closing duration	Remo contr
SLV1"	1"	1"	0 - 16	1 - 100	1 - 50	IP54 (NEMA13)	30 sec	Optic
SLV2"	2"	2"	0 - 16	1 - 100	1 - 50	IP54 (NEMA13)	105 sec	Optic
SLVE 1"	1"	1"	0 - 16	1 - 100	1 - 50	IP54 (NEMA13)	30 sec	Yes
SLVE 2"	2"	2"	0 - 16	1 - 100	1 - 50	IP54 (NEMA13)	105 sec	Yes

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR) driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity and efficiency. For more information, visit www.IRCO.com.
