

Bulk Compressor Applications

GHH RAND® Airends

GHH RAND® specialise in the design and manufacture of a range of oil free rotary screw airends that are available as a complete packaged solution to deliver oil free compression for a variety of pneumatic discharging applications for bulk materials, offering compliance with industry and hygiene standards.

Where customers cannot buy a complete solution from us, the airends are available alone to be used as part of your own, custom solution. The airend is the heart of our equipment and offers high operational reliability and maximum performance with our optimised design and engineering, offering a safe and effective solution to be installed onto most European road tankers.

About Ingersoll Rand Inc. Ingersoll Rand Inc.
