

Ultralube and Ultralube F

Synthetic polyalphaolefin (PAO) lubricants for use in oil-free screw compressor airends ensuring cooling and greasing of gears, bearings and partially "oil jacket cooling" of compressor stages.

Features

ULTRALUBE®

Synthetic polyalphaolefin (PAO) lubricant for use in oil free screw airends ensuring smooth running.

- Optimum airends performance
- Increased warranty for airends
- Double life cycle = lower labor and service costs
- Smooth airend operation
- Improved cold start performance

ULTRALUBE F®

A food grade version of this lubricant is also available.

Warranty

Warranty increase from 12 months to 24 months for industrial compressors & from 24 months to 36 months for jet starter compressors, based on only Ultralube being used for that particular compressor.

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR) driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions.
